How to Inflate a tire

- Loosen the bead retainer screws. (photo 1)
- Remove the valve core for added air flow. (photo 2)
- Use soap and water to help the tire bead seat.

WARNING

- Never hold the air hose head in hand, when inflating a tire. (photo 3, 4)
- Avoid staying at both sides of the rim, when inflating a tire.
- Do not exceed 4 bar, when seating a tire on the rim.

photo 1

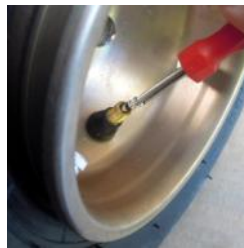

photo 2

photo 3

photo 4

Montaggio del pneumatico

- Allentare le viti di sicurezza. (photo 1)
- Rimuovere la valvola per un maggior passaggio dell'aria. (photo 2)
- Mettere del sapone sulla sede del pneumatico che è a contatto con il cerchio.

AVVERTENZA

- Mai tenere le mani nel cerchio, quando si tallona il pneumatico. (photo 3, 4)
- Non sostare davanti ai lati del cerchio, quando si tallona il pneumatico.
- Non superare 4 bar, quando si tallona il pneumatico sul cerchio.
